# What is One School, One Book?

One School, One Book is a movement designed to get an entire school community involved reading.

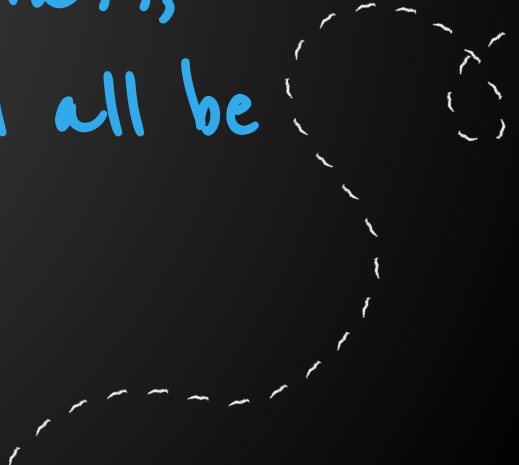

This summer, we want to provide an environment where our imaginations are set free through literature. By choosing one book, that spans various reading levels, both students and staff will come together and share thoughts, ideas, and a passion for reading.

# What is One School, One Book?

We aim to build a Community of Readers at our school. Everyone - students, staff, teachers, & administrative staff will all be following along together.

# How do I participate in One School, One Book?

To fully participate in everything we have planned, all middle school students are required to read the same book prior to the first day of school. You may purchase a copy or borrow one from the Alfred Baumann Public Library.

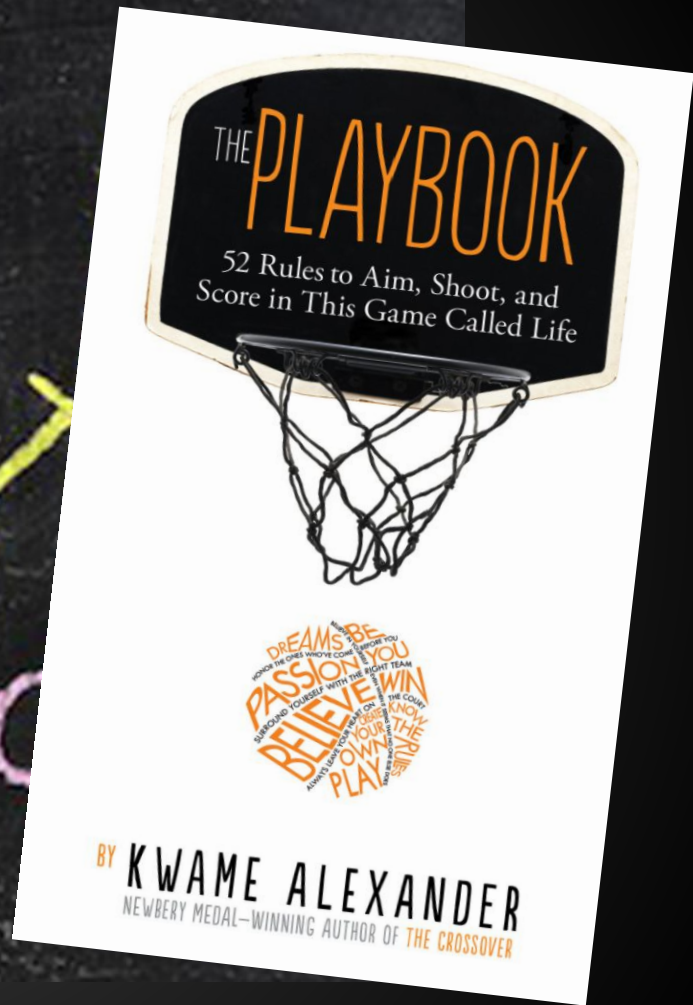

Summer reading is not limited to just teachers and students - we encourage parents and guardians to share in this experience by reading the book with their children.

Community involvement is what makes this program a success!

So what book  
will we read?
