Oct. 17, 2019

Good Afternoon,

I am very happy to provide an update from the incident which occurred yesterday at Beatrice Gilmore School during dismissal. After a thorough investigation by the Woodland Park Police Department in collaboration with our school district, it was determined that the woman in question was picking up children of her own and was signaling past the child who alerted us to the incident. This was confirmed with all parties involved.

I thank each and every one of you for your patience, diligence, cooperation and most importantly, your trust and faith in our police department and our educators. It is comforting to know that we will always come together to work as a team for the safety of our children and everyone in our community.

Have a wonderful day. Enjoy your family this evening.

Dr. Pillari
