## **Property Inspector**

The **Property Inspector** displays detailed information about items in the Fireworks workspace.

- Select a vector object to view detailed information: ex. stroke or fill color, size, effects, texture.
- Open a document to view its properties: ex: file name and type, canvas size and color
- Select a tool to view the options available when using the tool: ex. color, style, size •
- To expand or contract the bottom half of the inspector: Click the Expander arrow in the Property Inspector.

Visit: qr.customguide.com

## **Tools Panel**

- Pointer: Select an entire object or pixel area Select Behind: Selects objects behind other objects
- Scale: Transform the object using these tools Ż∕Skew ☐ Distort
- E Marquee: Select a rectangular pixel area ○ Oval Marquee: Select an ovular pixel area
- Magic Wand: Select a pixel area of similar coloring
- Pencil: Draw a freeform shape
- **Blur:** Smooth edges
- ▲ Sharpen: Focus edges
- **Dodge:** Lighten pixels **Burn:** Darken pixels
- Smudge: Smear pixels

- Eyedropper: Click the eyedropper cursor on the color you want to use
- Line: Draw a line

#### Assets Panels and Panel Groups

- To View a Panel: Select Window from the menu bar and select the panel you want to view. Or, click the title of the panel group, or click the expander arrow in panel group title bar.
- To View More Options: Click the panel's E Options menu.
- To Move, Dock, or Undock a Panel or Panel Group: Drag the panel gripper (dotted area on the left side of the panel title bar) to a new location or docking area.

### Optimize Panel

Optimize the image for the best-looking guality with the fastest download time.

#### Layers Panel

Add, delete, or edit layers, or insert objects in layers. Use layers to stack and organize objects.

#### Answers Panel

Connect to the Macromedia web site to learn about and access the most recent information about Fireworks.

Find specific information for the selected object: size, location, and colors used in the object.

Styles: Apply a predefined style to a selected object or text.

URL: Add URLs and save them in designated libraries so that you can reuse the URL easily.

Library: Create symbols that you will use repeatedly in the document and add them to the library.

#### Colors

document; create a new color or choose to use a different color model in your document.

Swatches: Create a new swatch to create your own color scheme, or modify an existing swatch.

#### Frames and History

Frames: Create frames for use in animations or behaviors, such as a button rollover. Use with the Behaviors panel.

History: Move the slider to undo or redo previous actions, or copy or save selected steps for future use.
